

About Homes RI

One of life's fundamental necessities is a safe and healthy home.

Homes RI is a coalition of organizations working together to increase and preserve the supply of safe, healthy and affordable homes throughout Rhode Island. We believe Rhode Island can and should be a state where all residents are able to live in safe, healthy and sustainable homes in thriving communities.

To accomplish this, our state must commit to making serious and sustained investments in housing.

These much needed investments will support economic and workforce development, health equity, strong communities, and reduce housing insecurity and homelessness.

We support increased state funding for:

1. Construction and preservation of safe, healthy, and affordable homes
2. Rental subsidies for low and very low-income households
3. Necessary services for people placed in permanent housing to support their health and wellbeing

We also support:

4. The removal of legal, administrative, regulatory, and economic barriers to quality housing.*

*This includes enacting legislation to reduce evictions and increase housing stability, and legislation that promotes new residential development for low and moderate income households, and preserves the viability of existing long-term affordable homes.
